

To whom it may concern

07/06/2011

Dear Sir/Madam,

İNTAÇ Construction Ltd. was contracted by TAV to provide complete static and a seismic design of the new "Alexander the Great International Airport in Skopje", and the "St. Paul the Apostle Airport in Ohrid", Macedonia. Together with the comprehensive design reports of the project both in English and in Macedonian, İNTAÇ Construction has also provided the required drawings of the new design, static and seismic assessment of the existing buildings in the airport area, consultancy on the advanced nonlinear seismic analysis of the structure to meet the local codes and supervision during the construction. İNTAÇ Construction has also been of great help and cooperation during the official process of obtaining the approvals from the Ministry of Transportation.

I hereby declare that İNTAÇ Construction has satisfied all our requirements and demands during the design and construction of these two airports and it's relevant facilities. In closing, I can state that İNTAÇ is a company that will perform design, consultancy and supervision that they are assigned with safely, timely manner and as promised by them, they are always ready to provide help when difficulties appear. Should you require any supporting information please feel free to contact me.

Best Regards,

Fatih Kan

Project Manager
